Contemporary Artist

## Curriculum Vitae

### ARTIST STATEMENT

From early morning as the sky slowly turns from a dense black to an endless palette of colors, to high noon when the sun is bright and straight up above, to a spectacular evening as the sun begins its dissent towards a quiet horizon, my work captures the essence of living in the South. I refer to my painting style as modern expressionism in which I purposely distort reality to express a particular mood, feeling or thought. I often exaggerate colors and shapes while over emphasizing brush strokes and gestural marks to build the framework of something recognizable. Very often, it's not what I paint, but what I don't paint that invites the viewer to complete the image in their mind. My aim for each painting is to spark interest and intrigue through color, composition and something unexpected.

### BIO

Robert is a contemporary artist from the Richmond metropolitan area. As a life-long sportsman, Robert is inspired by the outdoors, which is reflective in many of his paintings. While he does not consider himself a "landscape" painter, he often describes his works as "accidental landscapes". His paintings vary from heavily textured pieces that utilize organic elements such as cement and marble dust to works in which he applies multiple layers of acrylic washes to achieve atmospheric qualities. Robert works primarily in Acrylic, Oil and Cold Wax.

A graduate of Atlantic Christian College in Wilson, NC with a Graphic Design degree, Robert has served as an Illustrator with the Department of Defense, an adjunct professor teaching Airbrush Illustration at John Tyler Community College and a free-lance Illustrator for Ad agencies and corporate clients throughout Virginia. In 2004, Robert transformed his skills from a structured graphic design professional into an artist creating beautifully crafted paintings.

Robert's paintings are represented exclusively by Stravitz Fine Art Gallery in Virginia Beach and Crossroads Art Center in Richmond. Robert is also an exhibiting member of the Metropolitan Richmond Artists Association (MRAA) and lives and maintains a studio in Chesterfield, VA. His favorite colors are black and orange.
